Dr. Ovide Pomerleau

Newington, Ct. 06111

Dear Doctor Pomerleau:

Thank you for your expression of interest. We take pleasure in enclosing two brochures and an Annual Report describing the program and policies of this Council, and the areas of study supported. We will send application forms if you wish, but would suggest an alternative procedure which has proved to be advantageous.

This procedure is for a potential applicant to write to The Council stating briefly (i.e. two pages or so) (1) the problem to be developed for which support is requested, (2) general plan of investigation, (3) anticipated duration of the project, (4) anticipated cost of the project, and (5) C.V.'s and scientific bibliographies of the applicants. If closely relevant publications, abstracts or manuscripts are available, a copy of each will be helpful.

These inquiries are considered by the Executive Committee of the Scientific Advisory Board and, if favorably evaluated, a formal application will be forwarded to you.

In order for a grant to begin January 1st, a formal application would have to be postmarked no later than June 30th. For a grant to begin July 1st, the application would have to be postmarked no later than December 31st.

Sincerely,

Robert C. Hockett, Ph.D.
